#### **[LNET reports back](#)**

The first LNet (European Learning Network) dissemination event took place on 28<sup>th</sup> and 29<sup>th</sup> April 2005, and successfully engaged a wide audience of city managers, policy makers and practitioners including several delegates from the new EU Member States, and EU Accession countries. Tony Travers, President of the London Group at the London School of Economics, chaired the event which was attended by 130 delegates from 18 countries. The event was co-financed by the Interreg IIC Initiative and received additional financial support from the UK Embassy in Prague and the Central European Initiative.

Following this successful event and thanks to the support of the UK Embassy in Prague, LEED Partner Greater London Enterprise and the LNet partners published a report setting out the proceedings of two-day events on inter-regional cooperation, including case studies and best practices from old and new EU Member States, as well as from EU Accession countries in the field of social enterprise, innovation, and enterprise in deprived urban areas.

Please feel free to download the materials presented on 28th and 29th April 2005 in Prague at:
